

MTG-marketplace

2-sided marketplace for Magic: The Gathering cards

Why do we need this?

- Primary market: boosters and pre-built decks
- Pre-built decks poor quality
- Boosters encourage gambling
- Boosters have low expected value (i.e. below cost)
- Wizards of the Coast is a monopoly

Why do we need this?

- MTG-marketplace is a secondary market
- Know what card you are buying
- Know the cost of developing your collection
- Don't gamble
- Recoup value from unwanted cards
